

Document No.:

GA-MSDS-50381-E-v01-17-06-08

Safety Data Sheet

According to (EU) No.830/2015

1. Name of preparation and company

1.1. Product identifier

Trade name: DotDiver Anti-Gangliosid IgG, 20 x 12 determinations

Article no.: 50381

1.2. Using

DotDiver Anti-Gangliosid IgG is used for the qualitative Determination of IgG antibodies to gangliosides (sulfatides, GM1, GM2, GM3, GM4, GD1a, GD1b, GD2, GD3, GT1a, GT1b, GQ1b) in human serum or plasma using the DotDiver instrument.

1.3. Manufacturer

GA Generic Assays GmbH
Ludwig-Erhard- Ring 3
15827 Dahlewitz
Tel: +49-(0)33708-9286-0
Fax: +49-(0)33708-9286-50
Internet: www.genericassays.com
E-mail: info@genericassays.com

1.4. Emergency number

GA Generic Assays GmbH Tel.: +49-(0)033708 9286-0

2. Hazards

2.1. Classification of the mixture

The products / product components are **classified as non hazardous** according to EU Directive 1272/2008/EC.

2.2. Labeling elements

According to 1272/2008/EC: non

2.3. Other hazards

The products / product components contain preservatives which may at their given concentration possessing sensitizing and slightly polluting properties. As always special dangers posed by chemicals, the products / product components should be handled only by appropriately trained personnel and with the necessary for chemicals.

Results of PBT / vPvB assessment not applicable

Document No.: GA-MSDS-50381-E-v01-17-06-08	Safety Data Sheet According to (EU) No.830/2015	
---	---	---

3. Composition / Information on ingredients

3.1. Description of ingredients

Component	Ingredients	Preservative
Cartridge: Wash buffer	TBS, Tween, Antifoam emulsion	0.1% Neolone™ M10
Conjugate	anti-human-IgG-HRP, Antifoam emulsion	0.1% Neolone™ M10
Substrate	TMB	
Membrane Strips	Antigens: sulfatides, GM1, GM2, GM3, GM4, GD1a, GD1b, GD2, GD3, GT1a, GT1b, GQ1b	

3.2. Hazardous components and their concentrations

CAS No.	EINECS No.	Ingredient	Percent	Classification (in conc. Form) to 1272/2008/EG	
2682-20-4	220-239-6	Neolone™ M10*)	0.1-0.5	T C, Xi; N; Xi;	Acute tox. 3, H331, 311, 301 Skin corr. 1B, H314 Skin sens. 1, H317 Eye Dam. 1, H318 Aquatic Acute 1, H400

*) The preservative Neolone™ M10 contains < 10,0% 2-Methyl-4-isothiazolin-3-on (2682-20-4).

The full wording of the listed hazard warnings is given in section 16.

4. First aid measures

4.1. Description of first aid measures

Due to the very low concentrations of the hazardous ingredients in the product/components, consultation of a doctor is not necessary.

In cases of contact with skin, wash with copious amounts of water.

In cases of contact with eyes, rinse out for several minutes with water, with eyelids open.

In cases of swallowing, rinse out and drink copious amounts of water.

4.2. Important symptoms and effects

There are no known acute or delayed onset symptoms and effects.

4.3. Indications for immediate medical assistance and special handling

Where necessary consult an ophthalmologist.

Wash contaminated clothing before reuse.

Document No.:

GA-MSDS-50381-E-v01-17-06-08

Safety Data Sheet

According to (EU) No.830/2015

5. Fire-fighting measures

5.1. Extinguishers

Extinguishers indicated: water spray, foam, powder.

5.2. Special hazards arising from the contents

Not related

5.3. Notes on firefighting

Surround the fire with appropriate extinguishing material.
If necessary use breathing apparatus and protective clothing for firefighting.

6. Accidental release measures

6.1. Personal precautions

Observe the safety regulations of the laboratory.
To minimize the risk of contact with the skin and eyes, wear appropriate protective clothing. Do not swallow, do not pipette by mouth.

6.2. Environmental precautions

Do not release into drains/surface water/ground water.

6.3. Methods and materials for containment and cleaning

Contain spills with absorbent material, and dispose of appropriately. Following complete removal of the material, clean the affected area thoroughly.

6.4. Reference to other sections

Information on appropriate protective clothing can be found in section 8.2.
For disposal, consult section 13.

7. Handling and Storage

7.1. Protective measures for safe handling

Apart from the usual laboratory safety regulations, no particular protective measures are required.
Information on required protective clothing can be found in section 8.2.

7.2. Conditions for safe storage, including any incompatibilities

When well sealed according to instructions on the product components, storage at 2 - 8°C or -20°C

7.3. Specific end-uses

No further relevant information available.

Document No.:

GA-MSDS-50381-E-v01-17-06-08

Safety Data Sheet

According to (EU) No.830/2015

8. Exposure controls / personal protection

8.1. Parameters/exposure values to be observed

CAS No.	Ingredient	MAK or AGW (from TRGS 900)
2682-20-4	Neolone™ M10	1.5 mg/m ³

With appropriate use of the pack/pack contents, no air pollution is expected.

8.2. Limitations and monitoring of exposure

Respiratory protection: Not required
Gloves: Nitrile or natural latex laboratory gloves
Eye protection: Safety goggles
Bodily protection: Appropriate laboratory wear

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Form: liquid
Color: reddish (conjugate), colorless (wash buffer, substrate)
Odor: odorless
pH-value: 7.5
Melting point / Melting region / boiling point / boiling region / density: not related
Flash point: not applicable
Risk of explosion: no risk of explosion

9.2. Other properties

Solubility in / miscibility with water: complete

10. Stability and reactivity

10.1. Reactivity

There are no chemical reactive properties of the product / product components

10.2. Chemical stability

Within the stated storage temperatures and expiry dates, the product / components are chemically stable.

10.3. Possible hazardous reactions

No data available

10.4. Conditions to be avoided

Strong light sources can negatively influence the functional ability of the conjugate.

Document No.:

GA-MSDS-50381-E-v01-17-06-08

Safety Data Sheet

According to (EU) No.830/2015

**10.5. Incompatible materials**

Acids, alkalis and solvents can negatively influence the functional ability of the product / components.

10.6. Hazardous decomposition products

Within the stated storage and handling conditions, the product / components product no known hazardous decomposition products.

11. Toxicological information**11.1. Information on toxicological effects****Acute Toxicity**

Ingredient	Measurand	Value	Species
Neolone™ M10	LD ₅₀ (oral)	2838 mg/kg	rat (male)
Neolone™ M10	LD ₅₀ (oral)	1091 mg/kg	rat (female)
Neolone™ M10	LD ₅₀ (dermal)	>5000 mg/kg	rabbit

Other health effects

Ingredient	Irritation and corrosion	Sensitization	CMR Effect
Neolone™ M10	skin (rabbit)	yes (guinea pig)	none

12. Ecological information**12.1. Toxicity**

Ingredient	Measurand	Value	Species
Neolone™ M10	LC ₅₀	10 mg/l/96h	bluegill sunfish
Neolone™ M10	LC ₅₀	4.77 mg/l/96h	rainbow trout
Neolone™ M10	EC ₅₀	0.85 mg/l/48h	Daphnia magna
Neolone™ M10	EC ₅₀	0.22 mg/l	alga (Selenastrum capricornutum)

12.2. Persistence and biodegradability

Ingredient	Measurand	Value	Remarks
Neolone™ M10	OECD guideline 301B or equivalent	0.32 %	not easily biodegradable
Neolone™ M10	Sludge Respiration Inhibition (EC ₅₀)	41 mg/l	active substance

12.3. Bioaccumulation potential

No data available

12.4. Mobility in soil

No data available.

Document No.:

GA-MSDS-50381-E-v01-17-06-08

Safety Data Sheet

According to (EU) No.830/2015

12.5. Results of PBT and vPvB analyses

No data available.

12.6. Other harmful effects

Due to the very low concentration of hazardous ingredients in the product / components, no ecological problems are expected arising from their use.

13. Disposal considerations

13.1. Disposal methods

Product components

May not be disposed of with household waste.

Residues of chemical preparations are usually classed as waste which must be disposed of according to the rules issued by the country and government. Information on the disposal of hazardous waste can be given by the local authorities (agency or authorized waste disposal contractor).

Radioactive material is to be disposed of in special waste containers suited to this purpose.

Packaging

Disposal according to official regulations.

Contaminated packaging should be treated as per the product.

Non-contaminated packaging can be handled as household waste and be recycled, when regulations do not state otherwise.

14. Transport information

This product has no transport regulations

14.1. UN number

Not applicable

14.2. Transport hazard class

Not applicable

14.3. Packaging group

Not applicable

14.4. Environmental hazard

Not applicable

14.5. Special precautions for users

Not applicable

14.6. Mass transport in accordance with appendix II MARPOL agreements 73/78 and IBC code

Not applicable.

Document No.:

GA-MSDS-50381-E-v01-17-06-08

Safety Data Sheet

According to (EU) No.830/2015

15. Regulatory information

This safety data sheet fulfils the requirements of regulation 1907/2006/EG on the registration, evaluation, authorization and restriction of chemicals, (REACH), and the EU regulation 1272/2008/EG on the classification, labeling and packaging of chemicals and mixtures, as well as the regulation (EU) 830/2015 on the production of safety data sheets.

15.1. Safety, health and environmental regulations/ regulations specific to this substance or mixture

When handling the product, the current regulations for handling potentially infectious human sample material should be observed.

Product classification to1272/2008/EG: none

15.2 Chemical safety assessment

A chemical safety assessment has not been performed.

16. Other information

Full text of risk phrases listed in section 3.2.

H301	Toxic if swallowed
H311	Toxic in contact with skin
H314	Causes severe skin burns and eye damage
H317	Can cause allergic skin reactions
H318	Causes serious eye damage
H331	Toxic if inhaled
H400	Very poisonous to water organisms

Abbreviations and acronyms

AGW	Arbeitsplatzgrenzwert (workplace limit)
AP	Alkaline Phosphatase
BCIP	Bromo-Chloro-Indolyl-Phosphate
BSA	Bovine serum albumin
CAS	Chemical Abstract Service (division of the American Chemical Society)
CLP	Regulation of Classification, Labelling, and Packaging of Substances and Mixtures
CMR	cancerogenic, mutagenic or reprotoxic
EC50	Effective concentration for 50 % of subjects
EINECS	European Inventory of Existing Commercial Chemical Substances
GHS	Globally Harmonized System of Classification and Labeling of Substances
IBC-Code	International Code for the Construction and Equipment of Ships carrying dangerous Chemicals in Bulk
IARC	International Agency for Research on Cancer
LD50	Lethal dose for 50 % of subjects
LC50	Lethal concentration for 50 % of subjects
MAK	Maximale Arbeitsplatzkonzentration (maximum workplace concentration)
MARPOL	International Convention for the Prevention of Pollution from Ships
MIT	MethylIso Thiazolones
NBT	Nitrotetrazolium-Chlorideblue
OECD	Organization for Economic Co-operation and Development
PBT/vPvB	Persistent, bioaccumulative, and toxic substances / very persistent and very bioaccumulative substances
