

# Beta Synuclein Protein

Active Mouse Recombinant Beta Synuclein  
Protein Monomer  
Catalog No. SPR-406

Discovery through partnership | Excellence through quality

## Product Name

Beta Synuclein Protein

## Description

Active Mouse Recombinant Beta Synuclein Protein Monomer

## Applications

WB, SDS-PAGE

## Concentration

Lot/batch specific. See included datasheet.

## Conjugates

No tag

## Nature

Recombinant

## Species

Mouse

## Expression System

E. coli

## Purity

>95%

## Protein Length

Full Length

## Field Of Use

Not for use in humans. Not for use in diagnostics or therapeutics. For research use only.

## Properties

---

### Storage Buffer

PBS pH 7.4

---

### Storage Temperature

-80°C

---

### Shipping Temperature

Dry Ice. Shipping note: Product will be shipped separately from other products purchased in the same order.

---

### Purification

Ion-exchange Purified

---

### Specificity

14.05 kDa

---

### Cite This Product

Mouse Recombinant Beta Synuclein Protein (StressMarq Biosciences Inc., Victoria BC CANADA, Catalog # SPR-406)

---

### Certificate Of Analysis

Certified >95% pure using SDS-PAGE analysis.

---

## Biological Description

---

### Alternative Names

14 kDa brain-specific protein, Beta-synuclein Protein, Phosphoneuroprotein 14 Protein, PNP14 Protein, Sncb Protein, Synuclein beta Protein, SYUB\_MOUSE Protein

---

### Research Areas

Alzheimer's Disease, Neurodegeneration, Neuroscience, Parkinson's Disease, Synuclein, Tangles & Tau

---

### Cellular Localization

Cytoplasm

---

---

**Accession Number**NP\_001349336.1

---

**Gene ID**104069

---

**Swiss Prot**Q91ZZ3

---

**Scientific Background**

Alzheimer's Disease (AD) is the most common neurodegenerative disease, affecting 10% of seniors over the age of 65 (1). It was named after Alois Alzheimer, a German scientist who discovered tangled bundles of fibrils where neurons had once been in the brain of a deceased patient in 1907 (2). Beta synuclein is abundant in neurofibrillary lesions of patients with Alzheimer's Disease. Beta synuclein is suggested to be an inhibitor of alpha synuclein aggregation- protecting the central nervous system from the neurotoxin effects of alpha synuclein (3).
